

1a. Safeguarding Children and Child Protection Policy

EYFS: Section 3 – Safeguarding
and Welfare requirements

At Little Oaks Children's Nursery, we work with children, parents, external agencies, and the community to ensure the welfare and safety of children and to give them the very best start in life. Children have the right to be treated with respect, be helped to thrive and to be safe from any abuse in whatever form.

We support the children within our care, protect them from maltreatment and have robust procedures in place to prevent the impairment of children's health and development. In our setting we strive to protect children from the risk of radicalisation, and we promote acceptance and tolerance of other beliefs and cultures (please refer to our inclusion and equality policy for further information). Safeguarding children is everybody's responsibility. All staff, students, any supply staff, and visitors are made aware of and asked to adhere to, the policy.

This policy should be read in its entirety, however for ease, please see below key information.

Contact Details:

Concerns relating to a child or young person:

Children's SPA (Single Point of Access): 0300 470 9100 (Mon-Fri 8am-5pm)

Emergency Duty Team (Out of Hours): 01483517898

cspa@surreycc.gov.uk (for non-urgent queries)

edt.ssd@surreycc.gov.uk (for out of hours queries)

Where professionals are concerned that a child may be at imminent risk of significant harm please call 999 for police or make an URGENT Request For Support.

Concerns relating to an adult who works with children:

Local Authority Designated Officer (LADO): 0300 123 1650

Further Contacts:

Ofsted: 0300 123 4234

Non-emergency police: 101

Government helpline for extremism concerns: 020 7340 7264

Designated Safeguarding Lead (DSL) at Little Oaks Children's Nursery is:

Alicia O'Connell – Manager

The Nominated Person at Little Oaks Children's Nursery is:

James Horn

Deputy Designated Safeguarding Lead at Little Oaks Children's Nursery:

Klaudia Rose Matthews – Deputy Manager

Safeguarding Lead at Little Oaks Children's Nursery:

Caitlin Peters (Room leader 3rd in Charge)

Ann-Marie Johnson (Joint Room Leader and 3rd in charge)

Chantelle Spencer (Joint room leader)

Jonathon Wharton (Joint room leader)

Sarah Beer (Joint room leader)

Safeguarding is a much wider subject than the elements covered within this single policy, therefore this document should be used in conjunction with the nursery's other policies and procedures including:

- Online safety policy
- Attendance policy
- Human Trafficking and Modern Slavery
- Prevent Duty and Radicalisation
- Domestic Violence, Honour Based Violence (HBV) and Forced Marriages
- Looked After Children policy
- Monitoring staff behaviour
- Social networking
- Mobile phone and electronic device use (Acceptable internet use policy)
- Recruitment, selection and suitability of staff policy
- Disciplinary
- Grievance
- Promoting positive behaviour policy
- CCTV policy
- Data Protection and confidentiality policy
- Emergency lockdown policy
- Inclusion and equality policy
- Late collection and non-collection of children policy
- Lone working policy
- Low -level concern policy
- Missing children from Nursery policy
- Missing children from outings policy
- Mobile phone and electronic device use policy
- Nappy changing policy
- Photography and filming of children
- Respectful intimate care policy
- Social networking policy
- Special educational needs and disabilities (SEND) policy
- Staff code of conduct policy
- Supervision of children policy
- Supervision policy
- Volunteers policy
- Whistleblowing policy
- Young workers policy

LEGAL FRAMEWORK AND DEFINITION OF SAFEGUARDING

- The Children Act 1989 and 2004
- The Childcare Act 2006 (amended in 2018)
- Safeguarding Vulnerable Groups Act 2006
- Children and Social Work Act 2017
- The Statutory Framework for the Early Years Foundation Stage (EYFS) 2021

- Working together to safeguard children 2018
- Keeping Children Safe in Education 2022
- Inspecting safeguarding in Early years, Education and Skills setting 2021
- Prevent Duty 2015
- What to do if you're worried a child is being abused 2015
- The Counter-Terrorism and Security Act 2015.
- The Data Protection Act 1984, 1998 and 2018
- The Domestic Abuse Act 2021
- Criminal Justice and Court Services Act 2000
- Female Genital Mutilation Act 2003 (As amended by the serious crime act 2015)
- Freedom of Information Act 2012
- The Human Rights Act 1998
- The Police Act 1997
- The Sexual Offences Act 2003

Relevant non-statutory guidance:

Child sexual exploitation, DfE 2017 Information sharing, DfE 2024 What to do if you're worried a child is being abused, DfE 2015
--

Safeguarding and promoting the welfare of children, in relation to this policy is defined as:

- Protecting children from maltreatment
- Preventing the impairment of children's health or development
- Ensuring that children are growing up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes.

(Definition taken from the HM Government document 'Working Together To Safeguard Children 2018).

We ensure all staff, students and volunteers have the necessary knowledge and skills to carry out their duties and are confident to implement these policies and procedures on an ongoing basis to support them in promoting and safeguarding the welfare of children. This is achieved through recruitment and induction processes and by offering ongoing training and support to all staff, appropriate to their specific role, in line with criteria set out in annex C of the EYFS.

This policy is reviewed annually to ensure it remains in line with statutory guidance. Its effectiveness is monitored through staff and stakeholder reviews, appraisals and feedback to ensure appropriate knowledge and awareness is in place.

It is the responsibility of every staff member, student and volunteer to report any breaches of this policy to the Designated Safeguarding Lead (DSL).

POLICY INTENTION

The policy makes it clear that all staff, students and volunteers have a responsibility to safeguard children and young people and to protect them from harm. It aims to raise awareness of how to safeguard and promote the welfare of children and provides procedures should a child protection issue arise.

This policy applies to all children up to the age of 18 years whether living with their families, in state care, or living independently (*Working together to safeguard children*).

Safeguarding and promoting the welfare of children, in relation to this policy, is defined as:

- Providing help and support to meet the needs of children as soon as problems emerge
- Protecting children from maltreatment, whether that is within or outside the home, including online
- Preventing impairment of children's mental and physical health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- Promoting the upbringing of children with their birth parents, or otherwise family network through a kinship care arrangement, wherever possible and where this is in the best interests of the children
- Taking action to enable all children to have the best outcomes in line with the outcomes set out in the Children's Social Care National Framework.

Child protection is an integral part of safeguarding children and promoting their overall welfare. In this policy, child protection shall mean:

- The activity that is undertaken to protect specific children who are suspected to be suffering, or likely to suffer, significant harm. This includes harm that occurs inside or outside the home, including online.

(Working together to safeguard children)

To safeguard children and promote their welfare we will:

- Develop a safe organisational culture where staff are confident to raise concerns about professional conduct
- Ensure all staff are able to identify the signs and indicators of abuse, including the softer signs of abuse, and know what action to take
- Understand and be sensitive to factors, including economic and social circumstances and ethnicity, which can impact children and families' lives
- Share information with other agencies as appropriate.

We promote:

- Always listening to children
- Positive images of children
- Children developing independence and autonomy as appropriate for their age and stage of development
- Safe and secure environments for children
- Tolerance and acceptance of different beliefs, cultures and communities
- British values
- Providing intervention and help for children and families in need.

We have a duty to act quickly and responsibly in any instance that may come to our attention. If in any doubt about what constitutes a safeguarding concern, refer to the Designated Safeguarding Lead (DSL). If there is a concern, never do nothing (Laming, 2009), always do something, including sharing information with any relevant agencies. Safeguarding is everybody's responsibility.

The nursery aims to:

- Keep the child at the centre of all we do, providing sensitive interactions that develop and build children's well-being, confidence and resilience. We will support children to develop an awareness of how to keep themselves safe, healthy and develop positive relationships
- Be aware of the increased vulnerability of children with Special Educational Needs and Disabilities (SEND), isolated families and vulnerabilities in families, including the additional potential impact of the trio of vulnerabilities on children and Adverse Childhood Experiences (ACEs)
- Ensure that all staff feel confident and supported to act in the best interest of the child, maintaining professional curiosity around welfare of children, sharing information, and seeking help that a child may need at the earliest opportunity
- Ensure that all staff are trained at least every 2 years and updated regularly with child protection training and procedures and kept informed of changes to local and/or national procedures, including thorough annual safeguarding updates
- Make any child protection referrals in a timely way, sharing relevant information as necessary in line with procedures set out by the Surrey County Council and SSCB
- Ensure that information is shared only with those people who need to know in order to protect the child and act in their best interest
- Ensure that staff identify, minimise and manage risks while caring for children
- Follow clear whistleblowing procedures by taking any appropriate action relating to poor or unsafe practices and allegations of serious harm or abuse against any person working with children including reporting such allegations to Ofsted and other relevant authorities
- Ensure parents are fully aware of our safeguarding and child protection policies and procedures when they register with the nursery and are kept informed of all updates when they occur
- Regularly review and update this policy with staff and parents where appropriate and make sure it complies with any legal requirements and any guidance or procedures issued by Surrey County Council and SSCB. Also referring to the DfE safeguarding help for early years providers <https://help-for-early-years-providers.education.gov.uk/health-and-wellbeing/safeguarding>

Designated Safeguarding Lead (DSL)

The DSL has overall responsibility for the Safeguarding children and child protection policy and procedures. It is their role to ensure that the policy and procedures are implemented to safeguard and promote the welfare of children. They are responsible for coordinating safeguarding and child protection training for staff across the organisation.

There is always at least one designated person on duty during the opening hours of the setting. The designated persons receive comprehensive training, consistent with the training provided in Annex C of the EYFS, at least every two years and update their knowledge on an ongoing basis, but at least once a year. They in turn support the ongoing development and knowledge of the staff team with regular safeguarding updates.

Designated Safeguarding Lead	Alicia O'Connell
Deputy Designated Safeguarding Lead	Klaudia Rose-Matthews Ann Johnson Caitlin Peters Chantelle Spencer Jonathan Wharton Sarah Beer

In the unlikely event of the DSL or Deputy DSL absence and to ensure immediate action can be taken, contact the Local Safeguarding Partnership (LSP).

The role of the DSL

The role of the DSL is to:

- Monitor and update the Safeguarding children and child protection policy and procedures in line with new legislation and to ensure it is effective. This will be done by making sure that everyone understands the correct procedures during their individual annual review
- Ensure updates and new legislation are reflected in our services as soon as they are known
- Act as a source of support, advice and expertise for all staff, students, volunteers, children and parents who have child protection concerns
- Ensure detailed, accurate, secure written records of concerns and referrals
- Review all written safeguarding reports
- Assess information provided promptly, carefully and refer as appropriate to external agencies
- Provide signposting to other organisations
- Consult with statutory child protection agencies and regulatory bodies where required
- Make formal referrals to statutory child protection agencies or the police, as required.

In addition, the DSL is required to:

- Keep up-to-date with good practice and national requirements for safeguarding and child protection
- Provide information on safeguarding and child protection for the setting
- Raise awareness of any safeguarding and child protection training needs and implement where necessary
- Retain up-to-date knowledge of local child protection procedures, including how to liaise with local statutory children's services agencies and with the local safeguarding partners to safeguard children.

The DSL does not investigate whether or not a child has been abused or investigate an allegation or disclosure. Investigations are for the appropriate authorities, usually the police and social services.

We will support children by offering reassurance, comfort and sensitive interactions. We will devise activities according to individual circumstances to enable children to develop confidence and self-esteem within their peer group and support them to learn how to keep themselves safe.

EFFECTIVE FAMILY RESILIENCE AND SAFEGUARDING IN SURREY:

In Surrey, our approach to safeguarding is changing. The aim is to work in true partnership with families and provide them with the help and support they need so that children can remain living safely within their families.

The Effective Family Resilience model is for everyone who works with children and young people and their families, whether in a statutory or voluntary capacity, and can be found here:

[Early Help Strategy: Families First 2024 to 2027 \(surreycc.gov.uk\)](https://surreycc.gov.uk) The Early Help approach will be called “Family Resilience” and the Social Work practice model will be called “Family Safeguarding”. Within this, four levels of need have been identified as shown in the above windscreen.

SURREY CHILDREN'S SPA (SINGLE POINT OF ACCESS)

The Surrey Children's SPA is the umbrella term for the front door to support, information and advice for residents, families and those who work with children in Surrey. The SPA is the conduit for access to services at Level 3 and 4 of Effective Family Resilience, it also provides direct information, advice and guidance to residents and people who work with children in Surrey about where and how to find the appropriate support for families. Surrey Children's Services are committed to children and their families receiving the right help at the right time and SPA will better enable Surrey to fulfil this commitment.

All requests for support and contacts with SPA will be directed through the contact centre to the Children's Request for Support team. The team will perform initial triage on all contact from members of the public and professionals. Where contact details clearly indicate that a response is required from a specific team they will send the service request to the appropriate team to respond.

CHILD PROTECTION CONSULTATION LINE FOR EARLY YEARS SETTINGS:

The aim of the Child Protection Consultation line is to support Schools and Early Years Settings to ensure we are able to direct you to the most appropriate service that can meet the child and family's needs.

If you are unsure that a child or family in your setting warrants a child protection request for support and would like to discuss your concerns, please contact the Child Protection Consultation Line before completing the Request for Support Form. This will enable families to receive the most appropriate support in a timely manner.

The Consultation line staff will give advice only. If they advise a request for support is required, they will record this on the child's record and the referrers call will be forwarded to the Contact Centre. If they advise Early Help support, they will note the same on the child's record and forward to Early Help Services. The referrer should note on the Request for Support form that a consultation has taken place with the Consultation Line and that they were advised to make a child protection request for support. This will enable the appropriate support to be given to the child and family in a timely manner.

The Consultation Line will expect that you continue to consult the Effective Family Resilience Guidance, Surrey Child Protection Procedures and your DSL.

The Child Protection Consultation Line is operational between Monday and Friday, 9am to 5pm on 0300 470 9100 and select the consultation line option.

PARENTAL CONSENT:

The success of Effective Family Resilience model in Surrey is based on having strong relationships with families and we have to start this relationship in an open and transparent way. It is asked that everyone who seeks support for a family via the SPA has express consent from the parents (or Gillick competent young person) when submitting their request.

There will be some exceptional circumstances whereby to speak to the parents would likely cause harm to the child, and in such a situation, it is not expected that consent is sought.

When people request support from SPA, it is implicit that the family is not being "handed over", but that the request is for children's services to join the existing network around the family.

The signs and indicators listed below may not necessarily indicate that a child has been abused, but will help us to recognise that something may be wrong, especially if a child shows a number of these symptoms or any of them to a marked degree.

SHARING LOW-LEVEL CONCERNS

On occasion, inappropriate, problematic or concerning behaviour by staff or other adults is observed but does not meet the threshold for significant harm. This may be classed as a 'low-level' concern, although this does not mean that it is insignificant.

See Low-level concerns policy for full details.

We define a low-level concern as:

- Any concern, no matter how small, that an adult working with children may have acted in a way that is inconsistent with our Staff code of conduct policy, including inappropriate behaviour outside of work

- A concern that may be a sense of unease or a 'nagging doubt' and does not meet the harm threshold or is serious enough to refer to the LADO.

We encourage a culture of openness, trust and transparency, with clear values and expected behaviour, monitored and reinforced by all staff. All concerns or allegations, however small, will be shared and responded to. All concerns will be shared with the DSL, or other nominated person, as in our reporting procedures. We encourage concerns to be shared as soon as reasonably practicable and preferably within 24 hours of becoming aware of it. However, it is never too late to share a low-level concern.

It is not expected that staff will be able to determine whether the behaviour in question is a concern, complaint or allegation before sharing the information. If the DSL is in any doubt as to whether the information meets the harm threshold, they will consult the LADO.

Occasionally a member of staff may find themselves in a situation which could be misinterpreted or appear compromising to others. If this occurs, staff are encouraged to self-report to the DSL. Equally, a member of staff may have behaved in a manner which, on reflection, falls below the standards set in our Staff behaviour policy. If this occurs, staff are encouraged to self-report to the DSL. We encourage staff to be confident to self-refer and believe it reflects awareness of our standards of conduct and behaviour.

When the DSL receives the information, they will need to determine whether the behaviour:

- Meets, or may meet, the harm threshold (and so contact the LADO)
- Meets the harm threshold when combined with previous low-level concerns (and so contact the LADO)
- Constitutes a 'low-level' concern
- Is appropriate and consistent with the law and our Staff behaviour policy.

The DSL will make appropriate records of all information shared, including:

- With the reporting person
- The subject matter of the concern
- Any relevant witnesses (where possible)
- Any external discussions such as with the LSP or LADO
- Their decision about the nature of the concern
- Their rationale for that decision
- Any action taken.

This constitutes a record of low-level concern. We retain all records of low-level concerns in a separate low-level concerns file, with separate concerns regarding a single individual kept as a chronology. These records are kept confidential and held securely, accessed only by those who have appropriate authority. Records will be retained at least until the individual leaves their employment.

If the low-level concern raises issues of misconduct, then appropriate actions following our Disciplinary procedures will be taken. Records will be kept in personnel files as well as in the low-level concerns file.

DEFINITION OF HARM

Harm is as defined by section 31(9) of the Children Act 1989 and means ill-treatment (including sexual abuse and forms of ill-treatment which are not physical), or impairment of physical or mental health, or impairment of physical, intellectual, emotional, social or behavioural development. It also includes, for example, impairment suffered from seeing or hearing the ill-treatment of another.

This includes harm that occurs inside or outside the home, including in foster care and residential care, as well as online

- Know that young children may not be able to understand when something happening to them is abuse
- Ensure a shared understanding of all children's individual needs, particularly children with SEND
- Understand and be sensitive to factors, including economic and social circumstances and ethnicity, which can impact children and families' lives, including being aware of the range of support available for families

Every person looking after children must be alert to any issues of concern in the child's life at home or elsewhere.

The Children Act 1989 introduced the concept of significant harm as *'the threshold that justifies compulsory intervention in family life in the best interests of children'*. It gives LAs a duty to make enquires to decide whether they should take action to safeguard or promote the welfare of a child who is suffering, or likely to suffer, significant harm.

Whilst there are no absolute criteria to rely on when judging what constitutes significant harm, consideration should be given to:

- The severity of the ill-treatment, including the degree of harm
- The extent and frequency of abuse and/or neglect
- The impact this is likely to have, or is having, on the child involved.

This may be a single traumatic event, such as a violent assault, suffocation or poisoning, or it can be a combination of events (both acute and long-standing) that impairs the physical, intellectual, emotional, social or behavioural development of the child.

Definitions of abuse and neglect

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused within a family, institution or community setting by those known to them or, more rarely, a stranger.

Perpetrators of abuse can be an adult, or adults, another child or children.

(What to do if you're worried a child is being abused: Advice for practitioners and Working together to safeguard children)

The signs and indicators listed below may not necessarily indicate that a child has been abused, but can help to indicate that something may be wrong, especially if a child shows a number of these symptoms, or any of them to a marked degree.

Indicators of child abuse

- | |
|---|
| <ul style="list-style-type: none">• Failure to thrive and meet developmental milestones |
|---|

- Fearful or withdrawn tendencies
- Unexplained injuries to a child or conflicting reports from parents or staff
- Repeated injuries
- Unaddressed illnesses or injuries
- Significant changes to behaviour patterns.

Softer signs of abuse as defined by National Institute for Health and Care Excellence (NICE) include:

Emotional states: Fearful, withdrawn, low self-esteem.

Behaviour: Aggressive, habitual body rocking.

Interpersonal behaviours:

- Indiscriminate contact or affection seeking
- Over-friendliness to strangers including healthcare professionals
- Excessive clinginess, persistently resorting to gaining attention
- Demonstrating excessively 'good' behaviour to prevent parent disapproval
- Failing to seek or accept appropriate comfort or affection from an appropriate person when significantly distressed
- Coercive controlling behaviour towards parents
- Lack of ability to understand and recognise emotions
- Very young children showing excessive comforting behaviours when witnessing parental or carer distress.

Child-on-child abuse

Child-on-child abuse is also known as peer-on-peer abuse; children are included as potential abusers in our policies. Child-on-child abuse may take the form of bullying, physically hurting another child, emotional abuse or sexual abuse. Reporting procedures in these instances remain the same although additional support from relevant agencies may be required to support both the victim and the perpetrator. Children who develop harmful behaviours are also likely to be victims of abuse or neglect.

If **child-on-child abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Physical abuse

A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child.

If **physical abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Fabricated or induced illness (FII)

This abuse is when a parent fabricates the symptoms of, or deliberately induces, illness in a child. The parent may seek out unnecessary medical treatment or investigation. They may exaggerate a real illness and symptoms, or deliberately induce an illness through poisoning with medication or other substances, or they may interfere with medical treatments. This may also be presented

through false allegations of abuse or encouraging the child to appear disabled or ill to obtain unnecessary treatment or specialist support.

FII is a form of **physical abuse** and any concerns must be reported in line with our safeguarding procedures.

Female genital mutilation (FGM)

FGM is a procedure where the female genital organs are injured or changed with no medical reason. The procedure may be carried out shortly after birth, during childhood or adolescence, just before marriage or during a woman's first pregnancy, according to the community.

It is frequently a very traumatic and violent act for the victim and can cause harm in many ways. The practice can cause severe pain and there may be immediate and/or long-term health consequences, including mental health problems, difficulties in childbirth, causing danger to the child and mother, and/or death (definition taken from the *Multi-agency statutory guidance on female genital mutilation*). Other consequences include shock, bleeding, infections (tetanus, HIV and hepatitis B and C) and organ damage.

FGM is a form of **physical abuse** and any concerns must be reported in line with our safeguarding procedures. In addition, there is a mandatory duty to report to police any case where an act of FGM appears to have been carried out on a girl under the age of 18.

Breast ironing or breast flattening

Breast ironing, also known as breast flattening, is a process where young girls' breasts are ironed, massaged and/or pounded down through the use of hard or heated objects in order for the breasts to disappear or to delay the development of the breasts entirely. It is believed that by carrying out this act, young girls will be protected from harassment, rape, abduction and early forced marriage. These actions can cause serious health issues such as abscesses, cysts, itching, tissue damage, infection, discharge of milk, dissymmetry of the breasts, severe fever.

Breast ironing/flattening is a form of **physical abuse** and any concerns must be reported in line with our safeguarding procedures.

Emotional abuse

Working together to safeguard children defines emotional abuse as 'the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development.' Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur separately.

Examples of emotional abuse include:

- Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person
- Not giving a child opportunity to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate
- Age or developmentally inappropriate expectations being imposed, such as interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction
- Serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children
- A child seeing or hearing the ill-treatment of another.

A child may also experience emotional abuse through witnessing domestic abuse or alcohol and drug misuse by adults caring for them. In England, The Domestic Abuse Act (2021) recognises in law that children are victims of emotional abuse if they see, hear or otherwise experience the effects of domestic abuse.

Signs and indicators may include delay in physical, mental and/or emotional development, sudden speech disorders, overreaction to mistakes, extreme fear of any new situation, neurotic behaviour (rocking, hair twisting, self-mutilation), extremes of passivity or aggression, appearing to lack confidence or self-assurance.

If **emotional abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Sexual abuse

Sexual abuse involves forcing, or enticing, a child to take part in sexual activities. Sexual abuse does not necessarily involve a high level of violence and includes whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse.

Sexual abuse can take place online and technology can be used to facilitate offline abuse. Adult males are not the sole perpetrators of sexual abuse; women also commit acts of sexual abuse, as do other children. This policy applies to all children up to the age of 18 years.

Action must be taken if staff witness symptoms of sexual abuse including a child indicating sexual activity through words, play or drawing, having an excessive preoccupation with sexual matters or having an inappropriate knowledge of adult sexual behaviour, or language, for their developmental age. This may include acting out sexual activity on dolls or toys or in the role-play area with their peers, drawing pictures that are inappropriate for a child, talking about sexual activities or using sexual language or words.

Additional signs of emotional and physical symptoms are shown below.

Emotional signs

Physical signs

• Being overly affectionate or knowledgeable in a sexual way inappropriate to the child's age or stage of development • Personality changes, such as becoming insecure or clingy • Regressing to younger behaviour patterns, such as thumb sucking or bringing out discarded cuddly toys • Sudden loss of appetite or compulsive eating • Being isolated or withdrawn • Inability to concentrate • Lack of trust or fear of someone they know well, such as not wanting to be alone with a carer • Becoming worried about clothing being removed.	• Bruises • Bleeding, discharge, pains or soreness in their genital or anal area • Sexually transmitted infections • Pregnancy.
--	--

If **sexual abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Neglect

Working together to safeguard children defines neglect as 'the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development.'

Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve adults involved in the care of the child failing to:

- Provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- Protect them from physical harm or danger
- Ensure adequate supervision (including the use of inadequate caregivers)
- Ensure access to appropriate medical care or treatment
- Respond to their basic emotional needs.

The NSPCC statistics briefing for 2024 has found neglect continues to be the most common form of abuse, with one in ten children in the UK having been neglected. Concerns around neglect have been identified for half of children who are the subject of a child protection plan or on a child protection register in the UK. Younger children are more likely than older children to be the subject of a child protection plan in England because of neglect, although research suggests that the neglect of older children is more likely to go overlooked.

Signs of neglect include a child persistently arriving at nursery unwashed or unkempt, wearing clothes that are too small (especially shoes that may restrict the child's growth or hurt them), arriving at nursery in the same nappy they went home in, or a child having an illness or identified special educational need or disability that is not being addressed. A child may be persistently hungry if a caregiver is withholding, or not providing enough, food. A child who is not receiving the attention they need at home may crave it from other adults, such as at nursery or school.

Domestic abuse

The definition of domestic abuse from the Domestic Abuse Act, 2021 is:

Behaviour of a person (A) towards another person (B) is 'domestic abuse' if:

- *A and B are each aged 16 or over and are personally connected to each other*
- *The behaviour is abusive.*

Behaviour is 'abusive' if it consists of any of the following:

- *Physical or sexual abuse*
- *Violent or threatening behaviour*
- *Controlling or coercive behaviour*

- *Economic abuse (any behaviour that has a substantial adverse effect on B's ability to acquire, use or maintain money or other property and/or obtain goods or services)*
- *Psychological, emotional or other abuse.*

It does not matter whether the behaviour consists of a single incident or a course of conduct.

Domestic abuse can happen to anyone regardless of gender, age, social background, religion, sexuality or ethnicity and domestic abuse can happen at any stage in a relationship.

Signs and symptoms of domestic abuse include:

- Changes in behaviour (for example, becoming very quiet, anxious, frightened, tearful, aggressive, distracted, depressed etc.)
- Visible bruising or single, or repeated, injury with unlikely explanations
- Change in the manner of dress (for example, clothes to hide injuries that do not suit the weather)
- Stalking, including excessive phone calls or messages
- Partner or ex-partner exerting an unusual amount of control or demands over work schedule
- Frequent lateness or absence from work.

All children can witness and be adversely affected by domestic abuse in the context of their home life. Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children.

Where incidents of domestic abuse are shared by our own staff, students or volunteers we will respect confidentiality at all times and not share information without their permission. However, we will share this information, without permission, in cases of child protection or where we believe there is an immediate risk of serious harm to the person involved.

CONTEXTUAL SAFEGUARDING

As young people grow and develop, they may be vulnerable to abuse or exploitation from outside their family. These extra-familial threats might arise at school and other educational establishments, from within peer groups, or more widely from within the wider community and/or online.

As part of our safeguarding procedures we will work in partnership with parents and other agencies to work together to safeguard children and provide the support around contextual safeguarding concerns.

Child sexual exploitation (CSE) and Child criminal exploitation (CCE)

Both CSE and CCE are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat

If involvement in county lines is suspected, then any concerns must be reported in line with our safeguarding procedures.

of violence. CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation (*Keeping children safe in education*).

Child sexual exploitation (CSE)

CSE is where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into **sexual** activity. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology and may be without the child's immediate knowledge such as through others copying videos or images they have created and posted on social media.

Signs and symptoms include:

- Physical injuries such as bruising or bleeding
- Having money or gifts they are unable to explain
- Sudden changes in their appearance
- Becoming involved in drugs or alcohol, particularly if it is suspected they are being supplied by older men or women
- Becoming emotionally volatile (mood swings are common in all young people, but more severe changes could indicate that something is wrong)
- Using sexual language beyond that expected for their age or stage of development
- Engaging less with their usual friends
- Appearing controlled by their phone
- Switching to a new screen when you come near the computer
- Nightmares or sleeping problems
- Running away, staying out overnight, missing school
- Changes in eating habits
- Talk of a new, older friend, boyfriend or girlfriend
- Losing contact with family and friends or becoming secretive
- Contracting sexually transmitted diseases.

Child Criminal Exploitation (CCE)

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any **criminal** activity. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

Other examples include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country forced to shoplift or pickpocket, or to threaten other young people. Signs and symptoms of CCE are similar to those for CSE.

If CSE or CCE is suspected, then any concerns must be reported in line with our safeguarding procedures.

County Lines

The National Crime Agency (NCA) defines county lines as gangs and organised criminal networks involved in exporting illegal drugs from big cities into smaller towns, using dedicated mobile phone lines or other form of 'deal line.' Customers live in a different area to the dealers, so drug runners are needed to transport the drugs and collect payment.

Perpetrators often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. A child is targeted and recruited into county lines through schools, further and higher educational institutions, pupil referral units, special educational needs schools, children's homes and care homes.

Signs and symptoms include:

- Changes in dress style
- Unexplained, unaffordable new things (for example, clothes, jewellery, cars etc.)
- Missing from home or school and/or significant decline in performance
- New friends with those who don't share any mutual friendships with the victim, gang association or isolation from peers or social networks
- Increase in anti-social behaviour in the community including weapons
- Receiving more texts or calls than usual
- Unexplained injuries
- Significant changes in emotional well-being
- Being seen in different cars or taxis driven by unknown adults
- A child being unfamiliar with where they are.

Cuckooing

Cuckooing is a form of county lines crime. In this instance, the drug dealers take over the home of a vulnerable person in order to criminally exploit them by using their home as a base for drug dealing, often in multi-occupancy or social housing properties.

Signs and symptoms include:

- An increase in people, particularly unknown people, entering or leaving a home or taking up residence
- An increase in cars or bikes outside a home
- A neighbour who hasn't been seen for an extended period
- Windows covered or curtains closed for a long period
- Change in resident's mood and/or demeanour (for example, secretive, withdrawn, aggressive or emotional)
- Substance misuse and/or drug paraphernalia
- Increased anti-social behaviour.

If cuckooing is suspected, then any concerns must be reported in line with our safeguarding procedures.

Child trafficking and modern slavery

Child trafficking and modern slavery is when children are recruited, moved, transported and then exploited, forced to work or are sold.

For a child to have been a victim of trafficking there must have been:

- *Action*: recruitment, transportation, transfer, harbouring or receipt of a child for the purpose of exploitation
- *Purpose*: sexual exploitation, forced labour or domestic servitude, slavery, financial exploitation, illegal adoption, removal of organs.

Modern slavery includes slavery, servitude and forced or compulsory labour and child trafficking. Victims of modern slavery are also likely to be subjected to other types of abuse such as physical, sexual and emotional abuse.

Signs and symptoms for children include:

- Being under control and reluctant to interact with others
- Having few personal belongings, wearing the same clothes every day or wearing unsuitable clothes
- Being unable to move around freely
- Appearing frightened, withdrawn, or showing signs of physical or emotional abuse.

If child trafficking or modern slavery are suspected, then any concerns must be reported in line with our safeguarding procedures.

Forced marriage

A forced marriage is defined as 'a marriage in which one, or both spouses, do not consent to the marriage but are coerced into it. Duress can include physical, psychological, financial, sexual and emotional pressure.'

Where incidents of forced marriage are shared by our own staff, students or volunteers, we will respect confidentiality at all times and not share information without their permission. However, we will share this information without permission in cases of child protection, or where we believe there is an immediate risk of serious harm to the person involved.

If it is suspected that a forced marriage is being planned, then any concerns must be reported in line with our safeguarding procedures.

'Honour' based abuse (HBA)

HBA is described as 'incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing.' (*Keeping children safe in education*). Such abuse can occur when perpetrators perceive that a relative has shamed the family and/or community by breaking their 'honour' code. It is a violation of human rights and may be domestic, emotional

and/or sexual abuse such as being held against their will, threats of violence or actual assault. It often involves wider family networks or community pressure and so can include multiple perpetrators.

Signs and symptoms of HBA include:

- Changes in how the child dresses or acts, such as not 'western' clothing or make-up
- Visible injuries, or repeated injury, with unlikely explanations
- Signs of depression, anxiety or self-harm
- Frequent absences
- Restrictions on friends or attending events.

Where incidents of HBA are shared by our own staff, students or volunteers, we will respect confidentiality at all times and not share information without their permission. However, we will share this information without permission in cases of child protection, or where we believe there is an immediate risk of serious harm to the person involved.

If honour based abuse is suspected, then any concerns must be reported in line with our safeguarding procedures.

Child abuse linked to faith or belief (CALFB)

Child abuse linked to faith or belief (CALFB) can happen in families when there is a concept of belief in:

- Witchcraft and spirit possession, demons or the devil acting through children or leading them astray (traditionally seen in some Christian beliefs)
- The evil eye or djinns (traditionally known in some Islamic faith contexts) and dakini (in the Hindu context)
- Ritual or multi-murders where the killing of children is believed to bring supernatural benefits, or the use of their body parts is believed to produce potent magical remedies
- Use of belief in magic or witchcraft to create fear in children to make them more compliant when they are being trafficked for domestic slavery or sexual exploitation
- Children's actions are believed to have brought bad fortune to the family or community.

If CALFB is suspected, then any concerns must be reported in line with our safeguarding procedures.

Extremism and radicalisation

The Counter-Terrorism and Security Act 2015 places a duty on early years providers "to have due regard to the need to prevent people from being drawn into terrorism", including safeguarding learners from extremist ideologies and radicalisation to prevent them from being drawn into terrorism.

Children can be exposed to different views and receive information from various sources and some of these views may be considered radical or extreme. Radicalisation is the way a person comes to support or be involved in extremism and terrorism; usually it's a gradual process so those who are affected may not realise what's happening. Radicalisation is a form of harm.

The process may involve:

- Being groomed online or in person
- Exploitation, including sexual exploitation
- Psychological manipulation
- Exposure to violent material and other inappropriate information
- The risk of physical harm or death through extremist acts.

For further information visit [The Prevent Duty website](#).

If **radicalisation or extremism** is suspected, then any concerns must be reported in line with our safeguarding procedures. This includes reporting concerns to the police.

Online safety

While the growth of internet and mobile device use brings many advantages, the use of technology has become a significant component of many safeguarding issues such as child sexual exploitation and radicalisation.

There are four main areas of risk associated with online safety:

- Content - being exposed to illegal, inappropriate or harmful material such as pornography, fake news, racist or radical and extremist views
- Contact - being subjected to harmful online interaction with other users such as commercial advertising or adults posing as children or young adults
- Conduct - personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images and online bullying
- Commerce - risks such as online gambling, inappropriate advertising, phishing and or financial scams.

Report **online safety concerns** to the DSL and to the Child Exploitation and Online Protection Centre (CEOP): <https://www.ceop.police.uk/Safety-Centre/>
Inappropriate content received via email must be reported to the DSL and to the Internet Watch Foundation (IWF): <https://www.iwf.org.uk/en/uk-report/>

Up skirting/down blousing

Up skirting and down blousing are criminal offences. They involve taking pictures of someone's genitals, buttocks or other intimate images under their clothing without them knowing, either for sexual gratification or in order to humiliate, or distress, the individual.

If **up skirting or down blousing** is suspected, then any concerns must be reported in line with our safeguarding procedures.

REPORTING PROCEDURES

Public interest disclosure (whistleblowing)

Whistleblowing is the term used when a worker (Staff member, student or volunteer) passes on information concerning wrongdoing. All safeguarding allegations, internal or external, current or

historical, must be passed on the DSL. We will cooperate fully with the authorities involved and follow any guidance given.

See the whistleblowing policy which outlines our procedures, including where staff may wish to raise concerns about poor or unsafe practice regarding our safeguarding provision. All concerns will be taken seriously by our senior leadership team.

We believe keeping children safe is the highest priority and if, for whatever reason, concerns cannot be reported to the DSL or deputy DSL, or where a staff member feels that their genuine concerns are not being addressed, concerns can be reported anonymously to them LA social services safeguarding children team, the NSPCC, the police or Ofsted.

Reporting the abuse or misuse of images of children If a member of staff, student or volunteer becomes aware of the abuse or misuse of images of children from the nursery, they must immediately notify the DSL who would need to review the information provided to decide on the next steps:

- If the image(s) involve suspected child abuse or illegal imagery, DSL to report to the Internet Watch Foundation (IWF)
- If there are concerns regarding online abuse, extortion, or the ways individuals are communicating with children or staff online, DSL to report to the National Crime Agency CEOP Command
- If a child under 18 has had an explicit image shared online, DSL to support the child and/or their parents to use the Childline Report Remove Tool for IWF review and removal
- Escalate safeguarding concerns to the LADO/MASH as required.

SAFEGUARDING CONCERNS – REPORTING

We will always act on behalf of the child and will do everything possible to ensure the safety and welfare of any child and so will take all allegations of potential abuse seriously. All concerns reported to staff will be pursued, regardless of the nature of the concern and to whom the allegation relates.

All staff have a responsibility to report safeguarding and child protection concerns and suspicions of abuse. These concerns will be discussed with the DSL as soon as possible (**WITHIN 60MINUTES**), as follows:

	Staff member role on receiving information that causes a safeguarding concern	DSL role on receiving information that causes a safeguarding concern
Step 1	• Contact the DSL immediately. This must be a verbal conversation to ensure the concern is clearly understood and action is taken • If the DSL is unavailable, contact the Deputy DSL, LSP, NSPCC, social services or police until you	• If it is believed a child is in immediate danger, contact the police

	are able to have a verbal conversation For children who arrive at nursery with an existing injury, an 'incident outside nursery' form will be completed. If there are queries or concerns regarding the injury or information given, follow these procedures	
Step 2	- Write an objective report including: - Child's name and address - Age and date of birth - Date, time and location of the observation or disclosure - Exact words spoken by the child (as close to word-for-word as possible) and non-verbal communication - Outline of the concern - Exact position and type of any injuries or marks seen - Exact observation of any incident or concern reported and the names of any other person present at the time - Any known confidentiality issues - Signature and date of person making the report and the DSL or other nominated individual receiving the report	- Sign and date report received from staff member - Securely store the information according to the nursery procedures - If the safeguarding concern relates to a child, contact the Local Authority children's social care team, report concerns and seek advice immediately, or as soon as it is practical to do so - If the safeguarding concern relates to an allegation against an adult working or volunteering with children, contact the Local Authority Designated Officer (LADO) and request a confirmation email of the report, then report the concern to Ofsted - A full investigation into any allegation will be carried out by the appropriate professionals to determine how this will be handled - Note any actions requested by LADO / Ofsted and follow any instructions received
Step 3	- If you feel the report is not being taken seriously or are worried about an allegation getting back to the person in question, then it is your duty to inform the Local Authority children's social care team yourself directly - Follow all instructions from the Local Authority children's social care team and/or Ofsted, co-operating where required	- If appropriate, discuss the concerns or incidents with parent(s), unless it is believed that this would place the child at greater risk of harm - Record all discussions (remember parents will have access to these records on request in line with GDPR and data protection guidelines) - Follow all instructions from the Local Authority children's social care team and/or Ofsted, co-operating where required

		Record information and actions taken
Step 4		If the DSL is not the owner/manager and there is an allegation against a member of staff, then the owner/manager must be informed as they have a duty of care for their employees
Step 5		- If the Local Authority children's social care team have not been in contact within the timeframe set out in Working Together to Safeguard Children, it must be followed up - Never assume that action has been taken
Step 6	Safeguarding procedures will be reviewed to ensure the process has been applied in line with the policy	

If a concern is raised anonymously and we have no contact details, we will treat the concern as valid and follow the procedures as above. If a malicious call is suspected, the procedures will still be followed: a child may be in danger. The Information Commissioners Office (ICO) will be contacted to ensure permitted data sharing.

RECRUITMENT, SELECTION, INDUCTION AND TRAINING

Recruitment and selection

Through the implementation of our Safer recruitment of staff policy, we endeavour to prevent unsuitable people from becoming members of staff. We check the suitability of new recruits following the procedures outlined in the recruitment, selection and suitability of staff policy. Procedures include relevant checks, such as obtaining references, establishing the identity of applicant and conducting criminal records disclosures prior to employment. Where required, staff and stakeholders have enhanced DBS checks. Clear person specification criteria and processes during the recruitment and selection process enable us to determine a candidate's suitability for the role.

We have specific responsibilities, as outlined in this policy, for any staff, apprentices, students and learners under the age of 18 whether living with their families, in state care, or living independently.

Induction and probation for staff

As part of our induction process, all new workers will receive basic training on this Safeguarding children and child protection policy so they have the necessary knowledge and skills to safeguard and promote the welfare of children.

Within the first week of induction, all staff will receive a copy of this policy. It is the line manager's responsibility to ensure that the new staff member understands it and is able to follow it. All safeguarding training must be completed by the end of the probationary period.

All staff are expected to keep their safeguarding knowledge and skills up-to-date and report any concerns they may have. We maintain records to ensure all staff have received the training they need.

Learners on placements or in employment

We hold responsibility for ensuring that learners on placement or in employment are familiar with and sign up to this policy and agree to work within this framework. Learners will receive basic child protection training prior to starting their placement.

Learners and students under the age of 18 will be protected as children. Risk assessments will be completed to ensure their safety and well-being are protected and supported during their employment or training period. If situations arise during employment or placement which identifies those aged 18 or under are at risk from abuse or neglect, we will contact the appropriate bodies to ensure the individual is safeguarded.

Responding to and recording disclosures

Staff, volunteers or students may receive a safeguarding disclosure. See the guidance below for responding to and reporting disclosures of abuse.

Responding to a child's disclosure of abuse - what to do and say

- Stay calm and listen carefully
- Try not to look shocked and reassure them that this is not their fault
- Find an appropriate opportunity to say that the information will need to be shared and do not promise to keep the information shared a secret
- Allow the child to continue at their own pace
- Only ask questions for clarification and avoid asking any questions that may suggest a particular answer
- Reassure the child that they have done the right thing, let them know what you will do next and with whom the information will be shared
- Record the disclosure in writing using the child's own words as soon as possible, but not while the child is talking
- Includes the date and time, any names mentioned and to whom the information was given
- Sign and date the record, store it securely and refer the disclosure to the setting DSL and/or manager.

Recording a case of disclosure or suspicions of abuse in the community

If you observe a concern or receive a disclosure, make an objective record. Where possible include:

- Child's name and address
- Age of the child and date of birth
- Setting name and address
- Date and time of the observation or disclosure
- Details of the concern using factual information, including the exact words, if relevant
- Accurate details of the observation, including actions of the child or adult involved
- Accurate details of an injury or wound seen, including position and size
- The names of any other person present at the time
- Name of the person completing the report
- Name of the person to whom the concern was shared, with date and time.

Discuss the record with the setting DSL or manager and follow the procedures. We expect all members of staff and stakeholders to co-operate with relevant agencies to ensure the safety of children.

INFORMING PARENTS

Parents are normally the first point of contact. If a suspicion of abuse is recorded, parents are informed at the same time as the report is made, except where the guidance of the Local Authority children's social care team, police or LADO does not allow this to happen.

This will usually be the case where the parent or family member is the likely abuser or where a child may be endangered by this disclosure. In these cases, the investigating officers will inform parents.

SUPPORT TO FAMILIES

The nursery takes every step in its power to build up trusting and supportive relationships among families, staff, students and volunteers within the nursery.

The nursery will continue to welcome a child and their family whilst enquiries are being made in relation to abuse in the home situation. Parents and families will be treated with respect in a non-judgmental manner whilst any external investigations are carried out in the best interest of the child.

CONFIDENTIALITY:

Confidentiality must not override the right of children to be protected from harm. However, every effort will be made to ensure confidentiality is maintained for all concerned if an allegation has been made and is being investigated.

If uncertain about whether sensitive information can be disclosed to a third party, contact the DSL or call the Information Commissioner's Office helpline on 0303 123 1113. They will provide advice about the particulars relating to each individual case, including information which can and cannot be shared.

Staff must not make any comments either publicly or in private about the supposed or actual behaviour of a parent, child or member of staff.

RECORD KEEPING AND DATA PROTECTION

Confidential records kept on a child are shared with the child's parents or those who have parental responsibility for the child, only if appropriate and in line with guidance of the Local Authority with the proviso that the care and safety of the child is paramount. We will do all in our power to support and work with the child's family.

The nursery keeps appropriate records to support the early identification of children and families which would benefit from early help. Factual records are maintained in a chronological order with parental discussions. Records are reviewed regularly by the DSL to look holistically at identifying children's needs.

Our Data protection and confidentiality policy will be applied with regards to any information received from an individual. Only persons involved in the investigation should handle this information although any investigating body will have access to all information stored in order to support an investigation.

MONITORING CHILDREN'S ATTENDANCE

As part of our requirements under the statutory framework we must follow up on absences in a timely manner. See our attendance policy for further details about the processes we will take to implement this requirement.

We are required to monitor children's attendance patterns and trends to ensure they are consistent and no cause for concern. We ask parents to inform the nursery prior to their children taking holidays or days off, and all incidents of sickness absence should be reported to the nursery the same day so the nursery management are able to account for a child's absence.

If a child has not arrived at nursery within one hour of their normal start time, the parents will be contacted to ensure the child is safe and healthy. If the parents are not contactable then the emergency contacts numbers listed will be used to ensure all parties are safe. Staff will work their way down the emergency contact list until contact is established and we are made aware that all is well with the child and family.

If contact cannot be established then we would assess if a home visit were required to establish all parties are safe. If contact is still not established, we would assess if it would be appropriate to contact relevant authorities, including the police, in order for them to investigate further.

Where a child is part of a child protection plan, or during a referral process, any absences will immediately be reported to the Local Authority children's social care team to ensure the child remains safe and well.

STAFFING AND VOLUNTEERING:

Our policy is to provide a secure and safe environment for all children. We only allow an adult who is employed by the nursery to care for children and who has an enhanced clearance from the Disclosure and Barring Service (DBS) to be left alone with children. We will obtain enhanced criminal records checks (DBS) for all volunteers and do not allow any volunteers to be unsupervised with children.

All staff will undertake "Working Together to Safeguard Children" training within their first 12 weeks of employment. This will include the procedures for spotting signs and behaviours of abuse and abusers/potential abusers, recording and reporting concerns and creating a safe and secure

environment for the children in the nursery. During induction staff will be given contact details for the LADO (local authority designated officer), the SPA, and Ofsted to enable them to report any safeguarding concerns, independently, if they feel it necessary to do so.

At Little Oaks we give all staff members, volunteers and students regular opportunities during supervisions and having regular opportunities to declare changes that may affect their suitability to care for the children. This includes information about their health, medication or about changes in their home life which may affect their suitability to work with children.

We have named persons within the nursery who take lead responsibility for safeguarding and co-ordinate child protection and welfare issues, known as the Designated Safeguarding Leads (DSL), there is always at least one designated person on duty during all opening hours of the setting.

These designated persons will receive comprehensive training at least every two years and update their knowledge on an ongoing basis, but at least once a year.

The nursery DSL's liaise with the local authority children's social care team, undertakes specific training, including a child protection training course, and receives regular updates to developments within this field. They in turn support the ongoing development and knowledge update of all staff on the team.

Although, under the EYFS, we are only required to have one designated lead for safeguarding, for best practice and to ensure cover at all times, we have two designated leads in place. This enables safeguarding to stay high on our priorities at all times. There will always be at least one designated lead on duty at all times our provision is open. This will ensure that prompt action can be taken if concerns are raised.

- We provide adequate and appropriate staffing resources to meet the needs of all children
- Applicants for posts within the nursery are clearly informed that the positions are exempt from the Rehabilitation of Offenders Act 1974. Candidates are informed of the need to carry out checks before posts can be confirmed. Where applications are rejected because of information that has been disclosed, applicants have the right to know and to challenge incorrect information
- We give staff members, volunteers and students regular opportunities to declare changes that may affect their suitability to care for the children. This includes information about their health, medication or about changes in their home life
- This information is also stated within every member of staff's contract
- We request staff members to sign up to the DBS Update Service. Through this service, we undertake standard termly checks on the status of each employee's certificate. We will also seek to check the status of a DBS Certificate if we have performance concerns, after a promotion or demotion, or at any other time at the discretion of the DSL/DDSL.
- Staff members who did not subscribe to the DBS Update Service will require a new DBS Certificate every 3 years.
- We abide by the requirements of the EYFS and any Ofsted guidance in respect to obtaining references and suitability checks for staff, students and volunteers, to ensure that all staff, students and volunteers working in the setting are suitable to do so
- Ensure the setting is meeting the requirements of the EYFS statutory requirements
- We ensure we receive at least two written references BEFORE a new member of staff commences employment with us. References are followed up with a telephone call for further verification purposes

- All students will have enhanced DBS checks conducted on them before their placement starts
- Volunteers, including students, do not work unsupervised
- We abide by the requirements of the Safeguarding Vulnerable Groups Act 2006 and the Childcare Act 2006 in respect of any person who is disqualified from providing childcare, is dismissed from our employment, or resigns in circumstances that would otherwise have led to dismissal for reasons of child protection concern
- We have procedures for recording the details of visitors to the nursery and take security steps to ensure that we have control over who comes into the nursery so that no unauthorised person has unsupervised access to the children
- All visitors/contractors will be supervised whilst on the premises, especially when in the areas the children use
- As a staff team we will be fully aware of how to safeguard the whole nursery environment and be aware of potential dangers on the nursery boundaries such as drones or strangers lingering. We will ensure the children remain safe at all times
- The Staff Behaviour Policy sits alongside this policy to enable us to monitor changes in behaviours that may cause concern. All staff acknowledge this policy to ensure any changes are reported to management so we are able to support the individual staff member and ensure the safety and care of the children is not compromised
- All staff have access to and comply with the whistleblowing policy which will enable them to share any concerns that may arise about their colleagues in an appropriate manner
- Signs of inappropriate staff behaviour may include inappropriate sexual comments; excessive one-to-one attention beyond the requirements of their usual role and responsibilities; or inappropriate sharing of images. This is not an exhaustive list, any changes in behaviour must be reported and acted upon immediately
- All staff will receive regular supervision meetings where opportunities will be made available to discuss any issues relating to individual children, child protection training and any needs for further support
- We use peer on peer and manager observations in the setting to ensure that the care we provide for children is at the highest level and any areas for staff development are quickly highlighted. Peer observations allow us to share constructive feedback, develop practice and build trust so that staff are able to share any concerns they may have. Any concerns are raised with the designated lead and dealt with in an appropriate and timely manner
- The deployment of staff within the nursery allows for constant supervision and support. Where children need to spend time away from the rest of the group, the door will be left ajar or other safeguards will be put into action to ensure the safety of the child and the adult.

EARLY HELP SERVICES

When a child and/or family would benefit from support but do not meet the threshold for Local Authority Social Care Team, a discussion will take place with the family around early help services.

Early help provides support as soon as a concern/area of need emerges, helping to improve outcomes and prevent escalation onto local authority services. Sometimes concerns about a child may not be of a safeguarding nature and relate more to their individual family circumstances. The nursery will work in partnership with parents/carers to identify any early help services that would benefit your child or your individual circumstances, with your consent, this may include family support, foodbank support, counselling, or parenting services.

We also operate a Phones and Other Electronic Devices and Social Media policy, which states how we will keep children safe from these devices whilst at nursery. This also links to our Online Safety policy.

Our nursery has a clear commitment to protecting children and promoting welfare. Should anyone believe that this policy is not being upheld, it is their duty to report the matter to the attention of the DSL at the earliest opportunity.
